

# City Council Announcements

## December 3, 2024

### **Feedback needed:**

CAN staff is updating the policies for the city's Housing Stability programs. While those are being updated, the Administration has suggested allowing a deferment of loan payments for two homeowners due to economic hardship conditions. The deferment would last for 6 months or until the new policy statements can be considered by the Council early next year.

- **Is the Council supportive of allowing deferment in this specific instance?**
