

Upcoming Changes to Your Public Utility Rates

Próximos ajustes en las tarifas de los servicios públicos

As part of Salt Lake City's annual budget process, we've proposed new rates to make sure they are fair, affordable, fund our generational infrastructure projects, and support Salt Lake City's needs.

Your Public Utility bill payments are directly reinvested in our community to:

- Provide clean drinking water.
- Treat sewage safely.
- Control stormwater to prevent flooding and keep our local water bodies clean.
- Maintain and repair water pipes, sewer drains, and storm drains.
- Protect the land where our drinking water comes from.
- Light our streets safely and responsibly.
- Manage future water supplies.

Why Are Rates Changing?

To fund improvements, meet regulatory requirements, and ensure reliable service for you.

What Should I Expect?

Starting July 1, 2025 your water, sewer, stormwater, and street lighting rates will be changing.
