**Samuel Owen**, Council Public Policy Analyst, introduced the attached proposal.

**Cindy Cromer** spoke in support of the proposal and referenced information regarding the Water Maps Program (Page 4-35), and said she looked forward to reading the document without "draft" stamped on every page.

**Anne Charles** spoke regarding wanting to ensure accurate reporting within the plan, high water usage in the City, and the utilization of native/low water use plants/planting.

**George Chapman** expressed concerns regarding the plan needing more flexibility with residents who wanted to conserve water (reducing landscape/park strip planting requirements) and eliminating the need for Zoning Enforcement citations regarding lack of landscaping.

**Emily Alworth** said rebates/cost initiatives encouraged residents to be involved and more funding/effort should go to Demonstration Garden & SLCWise; however, the information on the website was outdated, and suggested collaboration with local horticulturalists to help guide up-to-date information.

Councilmember Fowler moved and Councilmember Rogers seconded to **close the public hearing and defer action to a future meeting**, which motion carried, all members present voted aye (roll call).

(T 20-5)

**#3. [7:35:00 PM Ordinance: Dockless Shared Mobility](#).** The Council will accept public comment and consider adopting an ordinance that would regulate the use of electric scooters and other dockless, shared mobility devices in the City. The updated ordinance incorporates some feedback and concerns including additional requirements for safety features, insurance requirement changes, and language to better differentiate between scooters and devices - motorized

or otherwise - used by individuals with reduced or specialized mobility, among other changes. [View Attachment](#)

**Mr. Owen** introduced the attached proposal.

**Ado Milicevic, Mackenzie Viau, and Alex April** provided comments in support of the proposal. Comments in summary included:

- Prioritizing safety and implementing best practices;
- Commitment to ensuring scooters were properly parked and not ridden on sidewalks; and
- Support for hybrid fee structure (upfront fee & .10 cent per trip)

**Dave Iltis** expressed concerns regarding the proposal, including: parking limitations (where scooters/shared mobility could park) being more restrictive than automobiles, no bike lanes provided on  $\frac{3}{4}$  of City streets (100 South, State Street, etc.), and the need for insurance limits to be codified in the ordinance.

**George Chapman** suggested the City allow bicycle riding on downtown sidewalks and said scooters should not be allowed in the City until they were required to have speed limiting switches (reducing speed to 5 miles per hour).

**Mike Christensen** indicated he was present only to listen.

Councilmember Mano moved and Councilmember Dugan seconded to **close the public hearing and defer action to a future meeting**, which motion carried, all members present voted aye (roll call).

**#4. [7:49:23 PM](#) Ordinances: Creating an Appeal Hearing Officer System by Repealing Civil Service Commission and Employee Appeals Board.** *The Council will accept public comment and consider adopting two ordinances:*

1. *One would repeal City Code Chapter 2.16 (the Civil Service Commission ordinance), amend the entirety of City Code 2.24 (the Employee Appeals Board ordinance) and replace both the Civil Service Commission and the Employee Appeals Board with an appeal hearing officer system.*
2. *One would enact Chapter 2.98 Competitive Merit-based Recruitment and Promotion Processes in the Fire Department and the Police Department.*

*The numbering of City Code 2.24 would remain the same, however the entire text would be replaced with the new hearing officer system for all eligible employee appeals. [View Attachment](#)*

**Benjamin Luedtke**, Council Public Policy Analyst, introduced the attached proposal and indicated the Council would vote on the item at the December 8, 2020 meeting.

**George Chapman** spoke in opposition of the proposal and suggested the ordinance needed further analysis/buy-in from Public Safety employees. He added the proposal would encourage more employees to leave Public Safety (already down 50 employees) and expressed concern that the burden would lie with only one person (eliminating Civil Service Commission & Employee Appeals Board).

**Anne Charles** indicated she was present only to listen.

Councilmember Fowler moved and Councilmember Dugan seconded to **close the public hearing and defer action to a future meeting**, which motion carried, all members present voted aye (roll call).

**George Chapman** suggested the City collaborate with the County (animal services) regarding re-implementation of pet licenses for seniors, additional lighting and mobile cop-cams were needed at resource centers and reducing diesel truck pollution (from idling) was needed.

**Emily Alworth** spoke regarding City/Council website accessibility and said all citizens of Salt Lake City needed better access to the information which would lead to a more informed public.

### **F. UNFINISHED BUSINESS**

**#1. 8:17:39 PM Ordinance: Police Officer Body-worn Cameras.** *The Council will consider adopting a new ordinance for the Police Department's use of body-worn cameras. Currently, however, there is not a City ordinance that standardizes the policy direction. This is part of a multifaceted approach the City is taking to examine internal systems and identify paths toward better accountability and equity. [View Attachments](#)*
