## Salt Lake City Consolidated Fee Schedule

This document shows fees charged by Salt Lake City to offset regulatory and administrative service costs. Although most City fees are shown, this consolidated fee schedule does not show penalties, such as fines and late fees; court fees; credit card processing fees; or fees required by a city contract, such as concession and franchise fees. It also may not show fees authorized by administrative rules or a general delegation of authority. The City intends that future versions of this document will show such fees.

Fees are generally listed by City department and the associated service. References to a "section" in the comments column means a section of the Salt Lake City Code. The code may be accessed by going to [Sterlingcodifiers.com](http://Sterlingcodifiers.com)

More than one fee may apply to a given set of circumstances. For answers to questions, please call the number shown at the top of each section.

The fees here may change. The current consolidated fee schedule may be accessed by clicking [here](#). The fee schedule was originally adopted by Ordinance 2011-25 and has been subsequently amended by:

Note:

"AWC" means average winter consumption, and is calculated as the average amount of water used by customer during the months of November through March, inclusive (a "winter period"), taking into account the highest number of complete winter periods available for that customer, up to a maximum of 3 winter periods. Any customer that at the time of calculation has not established an AWC will be assigned a class average AWC by meter size for such customer's classification. Customers with defective plumbing or unexplained decreases in usage of more than 25 percent may be adjusted back to a prior AWC, or be assigned the class average by meter size. In cases where class average is not available or is not reasonable, the Director may use other consumption information specific to such account to determine AWC.
