## ISSUE AT-A-GLANCE

The Administration has submitted six grant applications. In an effort to ensure that the City Council, Council staff and the public has adequate opportunity to see and comment on them, the grant application notifications will be included in the Council meeting agendas under Public Hearings. There won't be a set date since this is not a required hearing.

### 6. **Transportation and Land Use Connections 2023 – 1300 East/University District Circulation Study**

**Purpose/Goal of the Grant:** If awarded, the grant monies will be used to fund consulting fees for the 1300 East/University District Circulation Study, which would provide corridor recommendations for 1300 East and University Streets; strategies to include a new 200 South/University Street Mobility Hub, and designs for pedestrian/bike improvements.

**Grant Amount:** Consultant Services Valued at \$110,000

**Requested by:** Department of Community & Neighborhoods, Transportation Division

**Funding Agency:** Salt Lake County, Utah Department of Transportation, Utah Transit Authority, and Wasatch Front Regional Council, in collaboration with the University of Utah

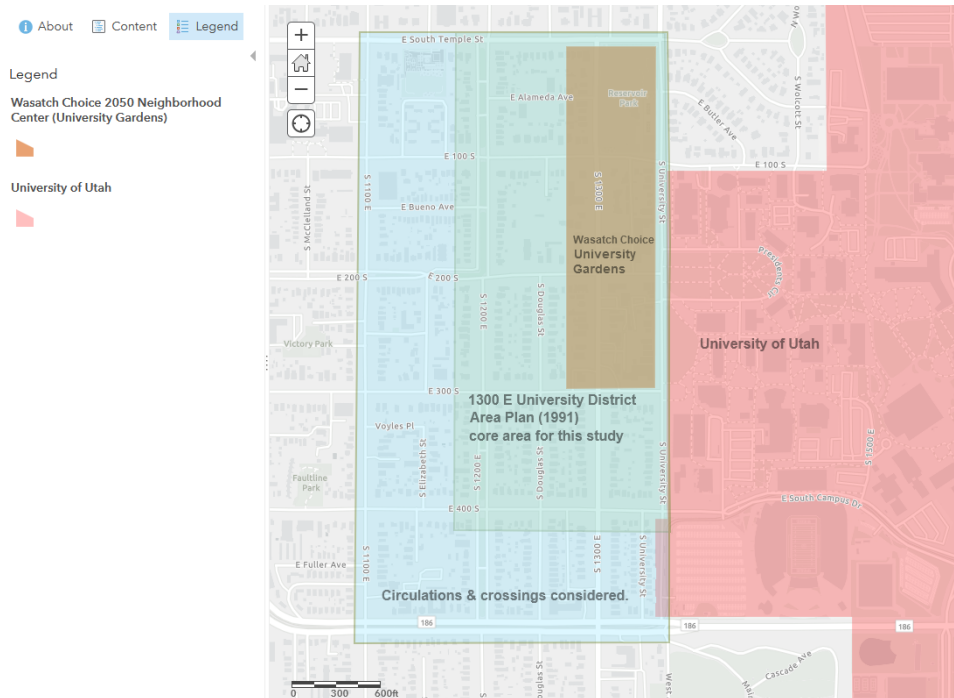

**Match Requirement:** \$15,000 – Source: Capital Improvement Program FY2023 request submitted by Transportation Division as part of Future Transformations: Corridor and Area Studies.

**Questions from Council staff and responses from the Administration:**

- a. Could you please clarify the area that would be studied? Would this include non-City streets on the University of Utah campus?

*The core study area is the same as the 1300 East / University District plan from 1991. Crossings and circulation to/from adjacent streets, notably President's Circle (University), South Campus Drive (UDOT), and 500 South (UDOT) will be considered.*

Staff Recommendation: Please refer to motion sheet.
